## Soft Skills

- Agile teamwork (Scrum/Sprint)
- Proactive and continuous learner
- Strong problem-solving skills
- Attention to detail and development best practices
- Autonomous and responsible work ethic

## Languages

- Spanish (Native)
- English (B2 Certified)

## Work Experience

### Frontend Developer

Controlnet S.L. | March 2024 - July 2025

- Development of mobile interfaces with Flutter and web applications with Angular (v16–18), reducing code duplication and improving maintainability.
- Support on React projects: creation of components, development of hooks, and map integration.
- Integration of REST APIs and UI implementation with Tailwind CSS and Bootstrap.
- Application of SOLID principles and clean architecture to ensure scalability.
- Mentoring and technical support for intern students, including task assignment and code review.

### Intern Developer

Controlnet S.L. | October 2023 - January 2024

- Developed a web application using Angular 16, TypeScript, and Bootstrap.
- Implemented responsive UIs based on client-provided designs.
- Consumed APIs via HTTP requests.
- Supported integration testing and feature validation.
- Collaborated with the tech team to align goals and outcomes.

## Education

### IES Doñana

HND in Web App Development | 2021 - 2024

### University of Cádiz

Master's in Integrated Water Management | 2020 - 2022

### University of Cádiz

Bachelor's in Environmental Sciences | 2014 - 2019

## Additional Training

- Flutter – Mobile: From Zero to Expert. (Udemy, Fernando Herrera)
- Angular: From Zero to Expert – 2025. (Udemy, Fernando Herrera)
- Angular Pro: Take your foundations to the next level. (Udemy, Fernando Herrera)

## Technical Skills

### Programming Languages & Markup

TypeScript | JavaScript | Dart | HTML5 | CSS3

### Frameworks

Angular | React | Flutter | Tailwind CSS | Bootstrap

### Development Tools

Git | GitHub | Figma | Asana | Monday

### Principles & Best Practices

Clean Architecture | Web Accessibility | Responsive Design

---
